Home After Business Hours. The road along which the man of bus iness travels in persuit of competence wealth, is not a macadamized of nor does it ordinarily lead through pleas-ant scenes and by well-springs of delight. On the contrary, it is a rough and rugged path, beset with thorns and full of pit-falls, which can only be avoided by the watchful care of circumspection. After every day's journey over this worse than rough turn-pike road, the wayfarer needs something more than rest; he requires solace, and he deserves it. He is weary of the dull prose of life, and is athirst for the poetry. Happy is the business man who can find that poetry at home. Warm greetings from loving hearts, fond glances from bright eyes, the wel-come shouts of children, the many thousand little arrangements for our thousand little arrangements for o comfort and enjoyment that silently to of a thoughtful and expectant love; the

of it; these, and like tokens or affection and sympathy, constitute the poetry which reconciles us to the prose of life. Think of this, ye wives and daughters of business men. Think of the toil, the anxiety, the mortification, the wear that fathers undergo to secure for you comfortable houses, and compensate them for their trials by making them happy at their own firesides.—Exchange.

Many formulas are now being used for communication.

Many formulas are now being used for composting manures, and they are more or less valuable in proportion to the amount of Phosphoric Acid, Nitrogen, [ammonia] potash, lime, and vegetable matter they contain.

All these elements of plant food exist in stable, cowlot; and other domestic manures. But the quantity of domestic manure made on the farm alone, and unaided, is not usually adequate to manure all the cultivated land. It is therefore the interest of the farmer to so increase the powers of his domestic manures by the addition of chemicals that he will be enabled to economically manure all his cultivated lands every year, and thereby secure good returns for his labor.

Phosphoric Acid is usually supplied to land in the form of ground bones, or some of the phosphater.

Nitrogen is usually supplied in the form of nitrate of soda or sulphate of ammonia.

It Positively Produces a Permanent Cure.

It is strange yet true, that as a rule it is a strate of society become addicted to this diseased appetite. A habit which makes them slaves beclouds their minds, rulus their dispositions, and gives them in their more natural moments a hatred of self as well as a feeling that everybody despises them—to such an extent that society has no charms. But thanks to the Giver of all good, this morbid, terrible habit, and degraded condition, as well as all of the desire and feeling for optates in any form is soon removed by this remarkable antidote, entirely so, and the weakened body and mind are invigorated, given renewed health until love and hope take the place of despondency and doubt. Though you may not be afflicted with the habit of using Monrhuns, LAUDANUM, or other forms of OPIUM, some friend may be, and you know it not, therefore set me ask you, in the name of suffering humanity to pass this on. By so doing you may respite reward of those who do good. Delay NOT.

The War Records. The war department is making considerable progress in publishing, or rather preparing for publication, the war rec ords, both Confederate and Federal. The appropriation of \$15,000 for the current year has been faithfully used to oush on the work. Owing to the confi dential and valuable nature of many o the interesting documents, it was decided to print in the department, on separate sheets, a dozen or so copies of each letter or dispatch. This plan obviates the necessity of copying them, and removes all the dangers of loss that might otherwise

occur in the government printing office It also puts the matter in the most con venient shape for the use of the edito who is to decide what shall be printed in the volumes that loom up in the future, and what shall be rejected as utterly un interesting and valueless. Chief-clerk Crosby urges a larger ap propriation for next year. He shows the ecessity of employing intelligent and ections from the great mass of the rec

selections from the great mass of the records, and that the secretary of war should be allowed to use his discretion in making payments for extra services on this important work. Since his letter was publiabed the house committee on appropriations has decided to put \$50,000 in the sundry civil appropriation bill for this purpose. It is none too much, and if this amount is judiciously expended it will go far towards putting the documents in a shape for publication. They should be made accessible without any unneces.

Supper, Decorations, Guests, etc. PEASE'S PALACE DINING ROOMS, LABAMA STREET, ATLANTA, GEORGIA HAVE PLEASED THE PROPLE SINCE 1865.

Last evening his excellency, Governor James M. Smith, tendered a reception to the nembers of the General Assembly. The occasion was one of, perfect enjoyment and splendor. The executive mansion was superbly decorated, and never presented a lovelier appearance. The entire first floor of the mansion was thrown open to the guests. This embraced the two magnificent parlors on the right and left of the hall, dressing-rooms, and two supper rooms. Although the number present was necessarily very large, there was little or no crowding or confusion, so general in entertainments of talk kind. THE DECORATIONS.

The decorations were extremely beautiful, and greatly heightened the appearance of the pariors and nails, Wreaths of evergreens, thickly studded with artificial flowers, hung gracefully from the walls in every direction. The chandaliers were covered direction. The chandaliers were covered with cedar. Indeed, the decorations were everywhere, and in endiess variety of de-signs. Pictures, curtains and cornices were encircled with beautiful wreaths and flow-ers. The guests were always proving about ers. The guests were always moving about under this shrubbery, and the effect was

Very Encouraging Reports.

A resolution was offered requesting the present directors of the Atlanta Cotton Factory company to issue a call for a meeting of the subscribers for the election of a new board of directors, of which thirty days notice shall be given new board of directors, of wmen and notice shall be given.

Mr. kawson informed the committee that he would call the directors together at once and the call for stockholders meeting would be issued in a day or two. The policy of having a large committee was shown to be having a large committee was shown to be

be issued in a day or two. The policy of having a large committee was shown to be correct, and it was resolved to increase it still further.

On motion, the following well known gentlemen were added to the committee: J. C. Kinaball, Julius L. Brown, J. J. Toon, J. Norcross, John H. James, J. R. Wallace, T. G. Healy. These gen lemen have all shown much interest in the success of the enterprise, and some of the had already obtained some subscriptions. J. C. Kinaball has been quietly at work, and sent in a list of nearly 100 shares, to which he will doubtless make large additions.

The success of the enterprise is now fully assured, and if our business men take

The committee are entitled to great credit for the energy and activity already displayed and if they persevere to success they will win the gratitude of the entire community.

SCHENCK'S PULMENIC SYRUP, SEA WEED TONIC AND MANDRAKE PILLS.—These deservedly celebrated and popular medicines have effected a revolution in the healing art, and proved the fallacy of several maxims which have for many years obstructed the ptogress of medical science. The false supposition that "Consumption is incurable" deterred physicians from attempting to find remedies for that disease, and patients afflicted with it reconciled themselves to death without making an effort to escape from a doom which they supposed to be unavoidable. It is now proved, however, that Consumption can be cured and that it has been cured a very great number of cases (some of them apparently desperate ones) by Schenck's Pulmonie Syrup alone; and in other cases by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or both, according to the requirements of the case.

Dr. Schenck hunself, who enjoyed uninterrupted good health for more than forty years, was supposed, at one time JANUARY. terrupted good health for more than for years, was supposed, at one the be at the very gate of death, I physicians having pronounced his can hopeless, and abandoned him to his fat He was cured by the aforesaid medicine

THE SPRING TERM OF MY PRIVATE School, at West End, will commence on the 18th i.stant. My place of teaching is a targe and commodious room in my dwelling, comfortable in winter, and well entitated and delightful in summer. The location is high and healthy, with extended grounds attached for physical recreation. I now have associated with me Prof. Chas. F. Gallmard, a native of France, an experienced and successful teacher of the French language. Pupils placed with me can, in addition to a thorough preparation for college, receive instruction in French, and in a manner as to acquire a thoroughly pure accent. I have wrought faithfully for upwards of five years to establish this school, and this being the 11th term, is a guaranty of its permanent success. I desire four or five more boys as hoarders. guaranty of its permanent success. I desi our or five more boys as boarders. jan13-dlw MARK JOHNSTON.

Thousands wo certify to their great value if necessary. Of fact should supercede any amount of cer cates, and that fact is this: Dr. Calhoun hear physician for the Futter. Canner, Pile. Dooley's Yeast Powder Is put up in Full Weight Cans. Dooley's Yeast Powder ract should supercede any amount of certificates, and that fact is this: Dr. Calhoun has been physician to the Fulton County Prison for over seven years, when the number of prisoners ranged from 20 to 70, laboring under all the diseases incidental to this climate. With but few exceptions they have all been treated with this Pill, and astonishing to say during that long period not a solitary death occurred under his treatment. This fact is worth any amount of testimonials.

IN again calling attention to our popular grades of flours, we will attempt no further leaboration of their merits, except to say, that no flour in the wide world can surpass our FFF in purity of stock and richness of sample; and that the world can't product a more substantial or maintive flour than our FF.

The Family is good for the price, but, necessarily limited in quantity; being made only when we make the FFF.

We can readily fill orders for FFF and FF; but in selling Family, we are compelled to limit the orders to the supply on hand.

Orders for the three grades in equal quantity can be filled at short notice, or for FFF and Family in nearly equal quantities. Orders can generally be supplied promptly.
